WANTS A DIVORCE.

Lord Francis Hope to Bring Suit Against His Wife, May Yohe.

New York, Sept. 6.—According to the London correspondent of the Herald, the divorce petition of Lord Francis Hope will be filed here in a few days, immediately after his return from the continent, whence he has been summoned, in order to sign the petition. His solicitors, Messrs. Maddison, decline to furnish any particulars of the allemoned, in order to sign the petition. His solicitors, Messrs. Maddison, decline to furnish any particulars of the allegation put forward in the petition, or to mention the name of the co-respondent until the document is filed, when it becomes public property.

It is reported that the decision to begin divorce proceedings was an afterthought, owing to the publicity given to May Yohe's movements in California and Yokohama, as well as to paragraphs to the effect that she is about to sue for her freedom.

It is understood that one reason for the proceedings not having been begun sooner; was owing to the Duke of Newcastle's opposition to his brother's name being paraded through the courts. The husband has been anxious since his wife left him to begin the suit immediately but, being dependent on the head of the family, he refrained out of deference to the duke's wishes. Since the newspryer reports appeared, however, it is send the Duke of Newcastle has withdrawn his opposition.

COMMERCIAL AND FINANCIAL WIRLD FINANCI

VOLUME OF BUSINESS LOWEST OF YEAR FOR DAY'S TRADING.

New York, Sept. 6.—Professional operators who were alone concerned in today's market for stocks had even more difficulty than yesterday to induce any movement of prices and the direction of the movement was also more shifting and uncertain. The volume of business fell back to about the lowest of the year for a full day's trading.

The uncertainty of the money outlook prompted the restriction of outlay in stocks while the strength of the general situation continues equally efficacious in deterring holders from selling. The usual weekly forecast of the weekly changes of the cash reserves of the bank, which is compiled from statements furnished by the banks themselves, was awaited with unusual interest today.

selves, was awaited with unusual interest today.

The market was inclined to rally on the bank statement and on the absence of a flurry in the call money market, which was expected on the special demand usual on Friday. The rise in New York exchange at Chicago to 40 discount, compared with 60 cents discount earlier in the week indicated relaxed pressure for funds. The high point touched for call loans was 4½ per cent. touched for call loans was 4½ per cent and it was only momentarily held. There was a very small business in railroad bonds. The price movement was unimportant. Total sales \$685,000. United States bonds were unchanged on

New York, Sept. 6.—Commercial-Advertiser's London financial cablegram: The stock market today was firm, but featureless, and business was somewhat relarded by the holiday tomorrow and the settlement next week. American shares opened dull, but were soon fractionally about parity. Norfolk & Western, Erie and Atchison were the favorites. New York's response to the better tone caused a steady finish. Speculation in this department has been somewhat checked by a feeling of nervousness over the showing to be made by the New York bank statement tomorrow. Money rules steady.

In the movement of merchandise and in many manufacturing lines, there has beer an effort to make up the loss by working overtime, but the week's record will fall behind those immediately preceding.

Actual sales of many iron and steel products are reckoned at material advances and the tone throughout has been hardened by vigorous demand.

Placing of sample orders for spring footwear is of such character as to indicate a healthy market, and some jobbers are so anxious for early delivery that contracts are being closed now.
